

# Sector Partnership Learning & Performance Journey

## Cross-Sector Shared Experience and Learning

Workforce Development Strategists from Sector Organizations Learn Together to Facilitate and Participate in Sector Partnerships: K-12, post-secondary, industry, professional associations, trade unions, chambers of commerce, etc.

## Project-Based Certification and Partnership Implementation Support

Successful participants earn a *Certified Performance Improvement Facilitator* credential from the Institute for Performance Improvement and International Society for Performance Improvement. Implementation support is available via Southern Regional Education Board.

## Participants Focus on Their Organizations' Challenges

Course participation, coaching and projects are focused on participants' organizations' "Big Rocks", complex performance needs, including workforce development and collaborative improvement and innovation.

## Engagement and Collaboration for Mutual Benefits

Participants connect through social learning and purposeful collaboration to innovate partnerships, master sector partnerships, and guide their respective organizations to collaborate across sectors.
